

Limited Warranty:

LiFeBlue Battery (hereafter LiFeBlue) warrants each LiFeBlue branded Lithium Ion battery sold by LiFeBlue or any authorized dealers or distributors, to be free of defects from the date of sale. Subject to the conditions listed below, LiFeBlue will repair or replace the battery or parts of the battery if deemed by us to be defective in materials or workmanship.

Application and Use

LiFeBlue batteries are designed to be used as deep cycle batteries. They may be used for off grid energy storage, recreational vehicles, boats, industrial or other deep cycle applications. LiFeBlue batteries are not designed for primary engine starting but may be used to supplement engine starting.

Warranty Period

LiFeBlue warrants the battery to be free from defects in materials and workmanship for 60 months from the date of purchase. This Limited Warranty is to the original purchaser and is not transferable.

After 60 months and up to 120 months from the date of purchase, if the failure is determined by LiFeBlue to be caused by defect in material or workmanship, and the battery is reasonably repairable as determined by us, it will be repaired and returned to you. If it is not deemed repairable by LiFeBlue, LiFeBlue will offer you a new, similar replacement battery discounted by 30% off the concurrent price listed on the LiFeBlue website. The replacement offer will be sent by email or in writing and will only be valid for 30 days after our determination is made.

Warranty Exclusions

LiFeBlue has no obligation to provide warranty for any product subjected but not limited to the conditions listed below.

1. Damage caused by repetitive BMS protection cycling is considered abuse and is not covered. LiFeBlue has a built in Battery Management System (BMS) designed to disconnect the battery to prevent damage to the cells or electronics if it senses any of the following conditions: Over-charge or Over-discharge, over voltage, under voltage, over current while charging or discharging and operating over or under specified temperatures. The user is responsible to manage their power sources and loads so the BMS protection system is not operating as a regulator cycling by the BMS.
2. LiFeBlue is not obligated to warrant a battery if failure is related to damages caused by abuse or negligence, tampering, non-adherence to LiFeBlue guidelines or from any of the following: a) Damage from shipping, b) Loose terminal bolts, c) Corroded hardware, d) Failure to properly install and connect the battery, e) Failure to properly charge and maintain the battery, f) damage caused from using as an engine starting battery, g) Breakage or damage from collision, fire, freezing, damage from extreme heat or cold, improper storage, reverse polarity connection, short circuit of the battery terminals or water damage.
3. LiFeBlue warranty is void if the battery case has been opened.
4. LiFeBlue does not cover worn out batteries. It is possible to use up the battery life prior to the end of Warranty period by using the battery for more than 1.5 cycles per day. A worn out battery will have 60% or less remaining capacity.
5. Shipping cost to and from LiFeBlue repair facility is not covered by this warranty. If LiFeBlue is contacted within 30 days after the purchase date for a warranty claim, shipping cost to and from LiFeBlue repair facility will be covered for any address within the 48 contiguous states.
6. This Limited Warranty does not cover batteries sold by LiFeBlue or any authorized distributor or dealer to an Original Equipment Manufacturer (OEM). Please contact the OEM directly for warranty claims.
7. LiFeBlue is not responsible for dealer or distributor created warranties or any claims that may arise from said warranties.

Limited Warranty:**Warranty Procedure:**

For any Warranty claim, first contact LiFeBlue with the details of your claim. LiFeBlue will make the arrangements for battery shipment to our service facility to assess the battery. We will determine the cause of failure and whether it is repairable.

If the failure is determined by us to be covered under the provisions of this Warranty, it will be repaired and returned to you. If it is not repairable, we will replace the battery within the first 60 months from the date of purchase.
